Heuchera 'Wendy'

Wendy Alum Root

Heuchera 'Wendy' belongs to the group of large leaf (H. maxima), native, Heuchera hybrids that prefer, dry, shady conditions. Once established, they require virtually no care other than removal of the dead flowers after bloom in the spring. They are most effectively shown when planted in mass. This perennial can reach 2' tall and wide. Evergreen leaves are large, rounded and light green. This perennial has clumping rosettes of tiny pink flowers.
