California Fescue

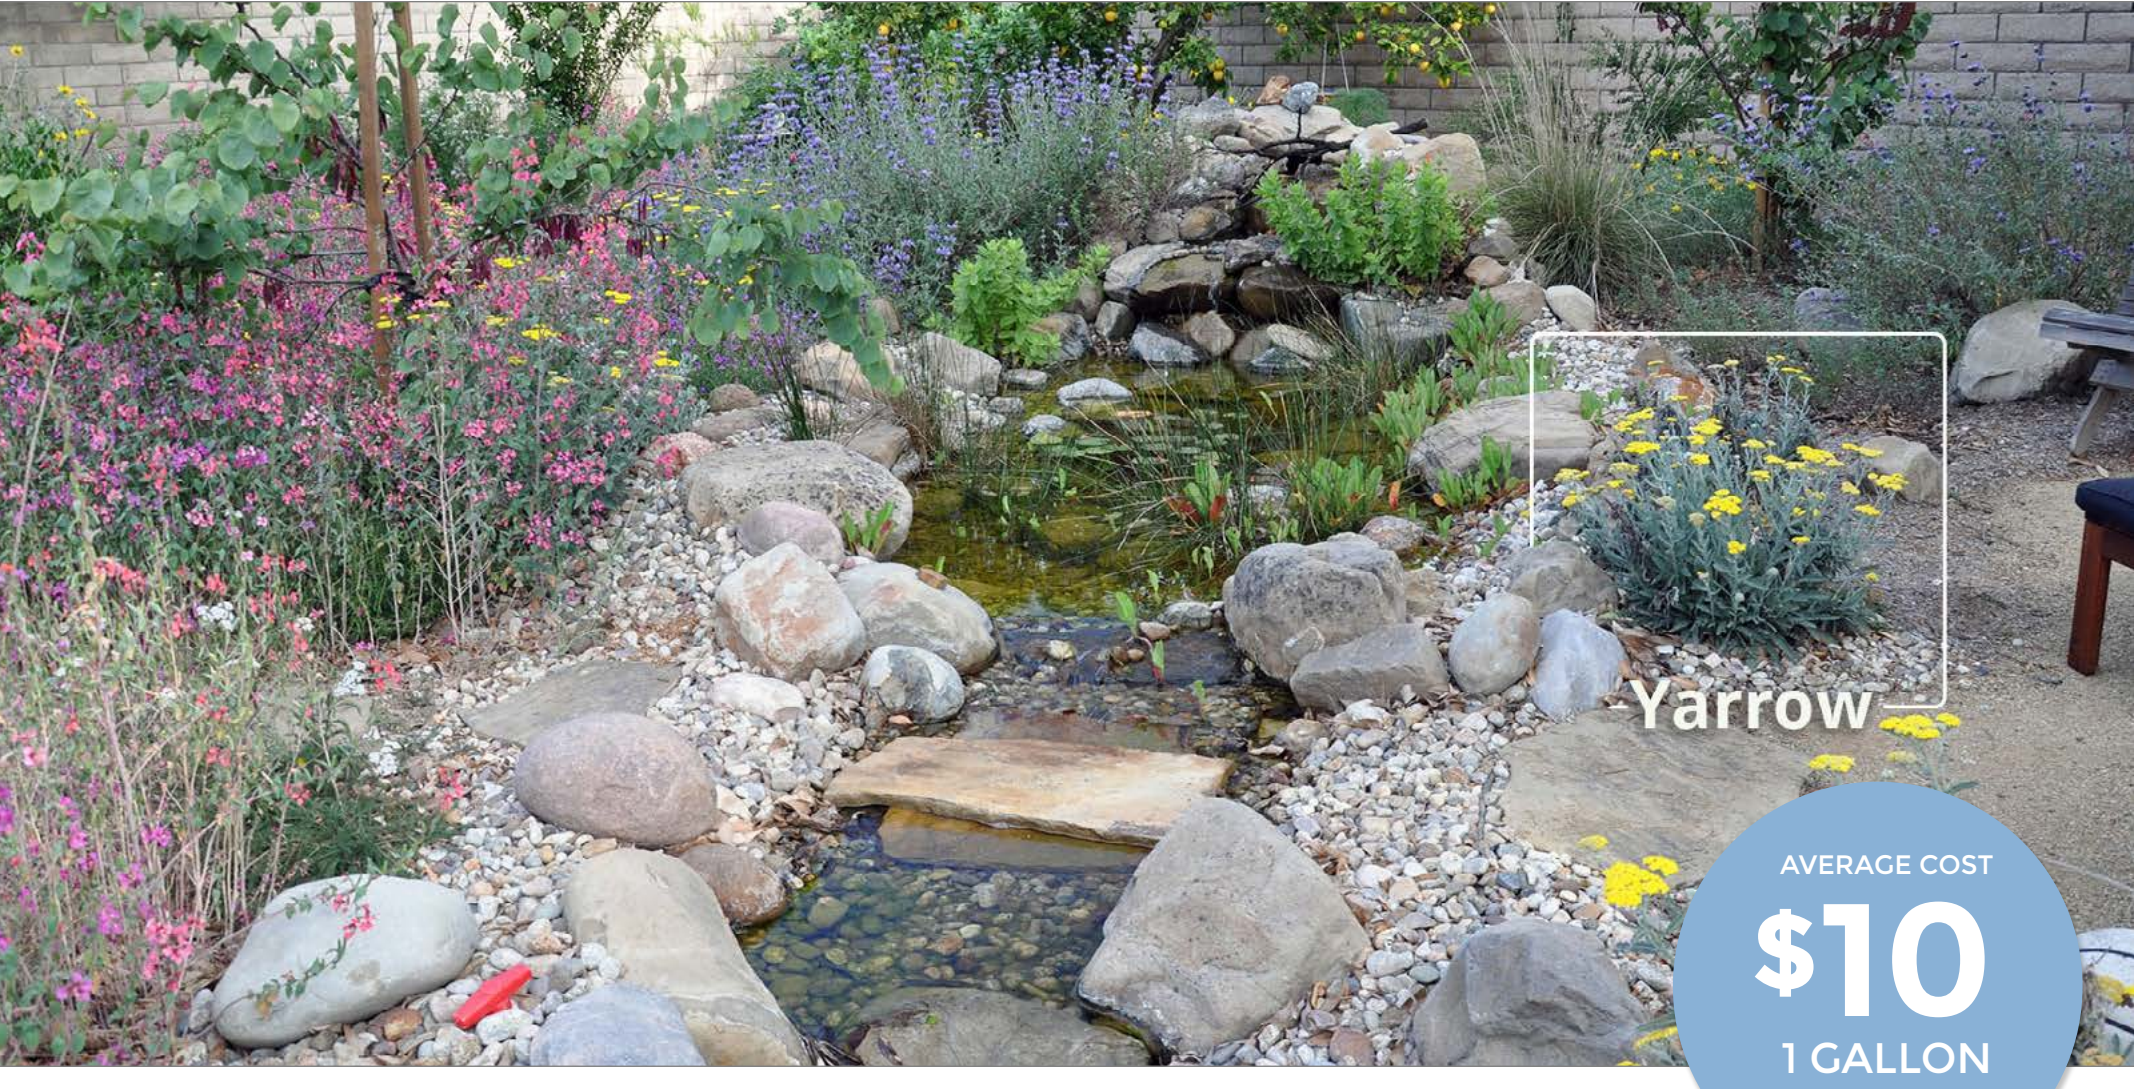

AVERAGE COST
\$10
 1 GALLON CONTAINER

Festuca californica
 California Fescue

The California Fescue is a cool season bunchgrass with blue-green blades that reach 2' high. The violet colored flower stalks are 5' tall, appearing in spring and summer, creating fountain-like clumps. This grass is drought tolerant for sun and shade although it looks better with additional summer water.

ANATOMY		CULTURE & DESIGN	
PLANT TYPE Perennial/Grass	LEAF COLOR Blue Green	SUN Full, Half	ADVERSE FACTORS n/a
HEIGHT RANGE 3-6'	BARK COLOR n/a	WATER Very Low	ACCENTING FEATURES Showy Flowers, Unusual Foliage
WIDTH RANGE 1-3'	FRUIT COLOR n/a	GROWTH RATE Moderate	SEASONAL INTEREST Spring, Summer
FLOWER COLOR Violet	FRUIT SEASON n/a	SOIL TYPE Sandy, Loam	
FLOWER SEASON Spring, Summer			

Yarrow

AVERAGE COST
\$10
 1 GALLON CONTAINER

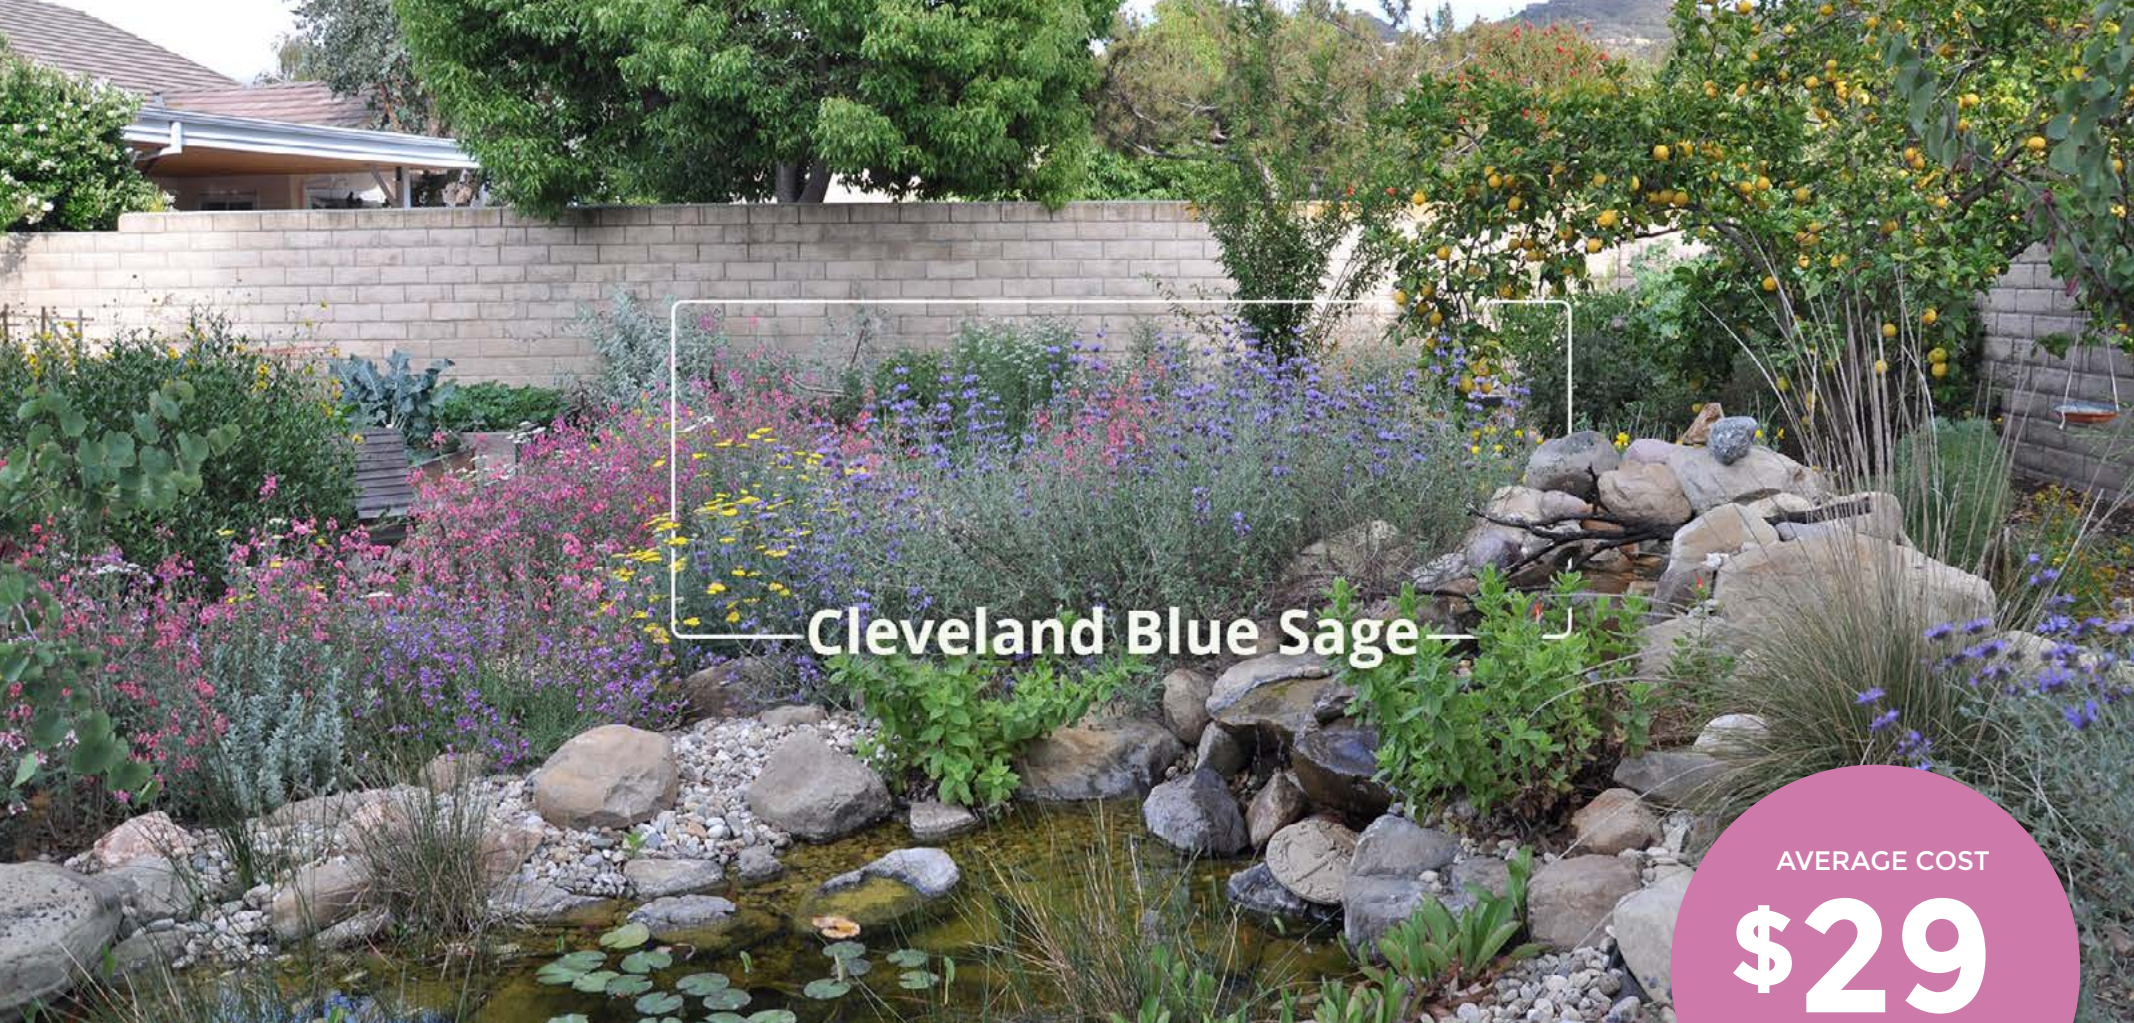

Achillea 'Moonshine'
 Moonshine Yarrow

Long, straight stems with pale yellow flowers are striking on the mats of green to gray-green leaves of this plant, which are flatter and less divided than those of the Achillea millefolium. This Yarrow propagates easily from rooted cuttings or divisions which should be performed in the early spring or fall.

ANATOMY		CULTURE & DESIGN	
PLANT TYPE Perennial	LEAF COLOR Green, Gray Green	SUN Full	ADVERSE FACTORS n/a
