Vitis X californica 'Roger's Red'

Roger's Red Wild Grape

This plant is a woody deciduous vine with round large, gray green leaves. The flowers are small fragrant, white blooms and berry clusters appear in the summer. This vine has a sprawling, climbing growth habit. Leaves turn red in fall, creating a spectacular show. This plant is drought tolerant. Grapes are ornamental only. Vitis looks great on fences and overhands in the Fall when the red comes out.
