Fremontodendron 'Ken Taylor'

Ken Taylor Flannel Bush

This plant is a low mounding, evergreen shrub quickly growing to 4'- 6' high and 10' wide. Bright yellow flowers bloom from mid-spring through early summer. It does best with full to part sun with well draining, acidic soil. Bees love this shrub. Branches are arching. Can be espaliered. No summer water needed after established. Leaves are deep green and lobed. Great plant for dry, sunny slopes.
