Chilopsis-linearis

Desert Willow

The Desert Willow is open and airy as a small tree, and with age, develops a shaggy bark and twisting trunks. The pink to lavender colored, fragrant flowers of the tree appear in spring and through the fall while the leaves will drop early. Pruning this 25' tall tree can make it very attractive; in winter, however, it is not attractive but supplemental watering helps its appearance. It needs good drainage and cannot tolerate over-watering.

ANATOMY

	PLANT TYPE Tree		FLOWER COLOR Lavender, Pink		BARK COLOR Gray, Tan
	HEIGHT RANGE 12-25'		FLOWER SEASON Spring, Summer, Fall		FRUIT COLOR n/a
	WIDTH RANGE 6-12'		LEAF COLOR Green, Light Green		FRUIT SEASON n/a

CULTURE & DESIGN

SUN
Full

ACCENTING FEATURES
Fall Color, Fragrance,

SEASONAL INTEREST
Spring, Summer, Fall

WATER
Very Low

SOIL TYPE
