Rhus ovata
 Sugar Bush

Sugar Bush is a dense, rounded evergreen shrub growing 8'-15' tall and wide with creamy flowers in spring. Small red fruit follows blooms, which are edible. It grows well in inland areas and is drought tolerant. Leathery, rich, dark foliage is evergreen. It prefers full sun and well draining soil. It is drought tolerant once it's established although it could use additional irrigation in hot summer areas. Do not plant in wet areas.
